Welcome from The Excellencies of the Hills

To our most beloved Barony of Endless Hills,

We, Baroness Kolfinna Jodisardottir and Baroness Revna Lunarís, send greetings! As we geared up to aid their Majesties in war, we wanted to take a moment and talk about the last two months. It has been a whirlwind of us settling in and getting to know our people better. Since stepping up we held our day of tournaments to determine our 7 pearls champions; it was a beautiful day albeit a bit chilly! We were able to see the amazing talents of our populace and we can't wait to see more of our

artists and fighters do wonderful things at pennsic. If Our Baronial Champions would like to enter the Baronial tournaments at Pennsic, please let either of us know so we can be there to support you!

We are hoping to have a wonderful display of our people at the Pennsic opening ceremonies procession and would ask for any and all members of the Barony to take the time to join us at 5pm at the A&S tents for a brief Baronial court before the procession.

We are devoted to the service of Barony and the Kingdom in every form possible. We would welcome any and all to come visit us during any event to discuss ideas or suggestions for the Barony! We are also available online and at Baronial practices, as we will both be at pennsic.

Prep for Pennsic: Advice from our Captain of Rapier

Summer and War is upon us!

Good evening, Endless Hills! The Kingdom's fields are once again striding full of meleeing rapier fighters battling under the summer sun. With the joys of melee also comes the risk for the unprepared. Heat, humidity and increased exertion for long periods can catch even the seasoned fighter at the beginning of the summer. The key is to prepare ahead of time and take precautions as needed.

1. Drinking water and electrolytes prior to exerting is key to preventing heat stroke. To start exercise adequately hydrated, the American Council on Exercise suggests:
 - a. 17 to 20 ounces of water a few hours prior to exercise
 - b. 8 ounces of water 20 to 30 minutes before exercise or during your warm-up
 - c. 4 to 8 ounces of fluid every 15 to 20 minutes during exercise. (High-intensity exercise in the heat might require the higher end of that spectrum — 8 ounces every 15 minutes)
2. In addition to dehydration, sunburn is another risk we face. Keeping sunscreen in your kit for the field is an ideal way to be prepared. Getting one that is meant for travel and keeping it in a ziplock or other such container will keep it from adding too much extra bulk or mess to the gear.
 - a. The American skin cancer council recommends reapplying every 2 hours while outdoors.
3. It's also very easy to forget to eat while dealing with the heat. Making sure to eat appropriately for your body's needs before, during and after will keep you in fighter condition. Knowing your body and keeping snacks you might need in your kit will prevent you from losing time on the field to searching for food breaks.
4. Finally, our gear is going to take a major beating during the numerous events being held out in all sorts of weather. It's best to keep a blade repair kit and small sewing kit with your gear to hopefully ward off having to sit on the sidelines if gear has a failure. Ideally, blades should be cleaned and either waxed or oiled prior to taking out to the event to prevent rust. Taking the time before going to an event to sand any burs out will speed the inspection time and get you out on the field quicker. Double checking armor bits and doing repairs at home will prevent sitting on the sidelines.

Preparing and planning keeps our melee marshals from having to do paperwork so drink your water, know your body, and keep your gear in condition!

Closing Chronicler Remarks

Greetings Endless Hills from your chronicler Lady Matilda!

The countdown to Pennsic is almost up, and Scadians will be making the trek home.

Pennsic 52 is here. So shine up your blades, tape up your weapons, and knock the arrows strong. A note I'd like to take a second on is, we are all in this together!

If someone is in need of a ride to Pennsic and offering gas money, offer to drive them.

If someone looks exhausted to the point of dehydration, fan them and hand them some water.

Offer some sunscreen to people that are surrounding you.

You might be young, you might make questionable decisions, and you will most likely fall down if you're not paying attention to the ground below.

Therefore stick to the people close to you. Ask friends at your local practice how they are doing. Walking around on the Pennsic grounds, hold out a helping hand. You never know who you will meet throughout the day.

The impact you could make on an individual by just smiling is huge.

The SCA is an amazing community that started in 1966 in Berkeley California. The whole idea is to spread the medieval charm for many years to come!
